SMAHRT METROLOGY

WIRELESS DEVICES FOR MORE MEASURING CONVENIENCE

Mahr's new devices with Integrated Wireless transmitters are designed for user-friendly, practical and cost-effective use in your factory. They will make your measurement recording processes much faster and more efficient.

Mahr's calipers, micrometers and indicators herald a new era:

Mahr has enhanced its MarCal, Micromar and MarCator ranges with state-of-the-art patented technology.

These special measuring instruments:

- Have a transmitter directly integrated in the measuring instrument
- Are energy efficient and do not require a separate battery

BEFORE

Conventional measuring station – with cable connection

BENEFIT FROM THESE ADVANTAGES:

Data Link	Integrated Wireless	Cable Connection
Range	Max. 6 m	Max. 2 m (without extension cable)
Freedom of Movement and Operation	Fully autonomous measuring without restrictions	Limited freedom of movement, especially at measuring stations with multiple measuring instruments
Wear	No risk of damage or wear	Risk of: - cable breaks, cable kinks - embrittlement from oil, etc.
Interface	1 affordable i-Stick receiver for 8 measuring instruments (maximum 4 i-Sticks per PC) Free MarCom Professional Software interface	One cable is required for each measuring instrument Additional hardware interface must be purchased
Safety	Visual feedback of successful transmission on display of measuring instrument, or error message	No feedback from transmission Unplugged cables or cable breaks are not identified

AFTER

Innovative measuring station – with Integrated Wireless

Micromar 40 EWRi Digital Micrometer

Wireless data transmission capability is integrated within the NEW MarCal Digital Micrometer using proven wireless technology. With an extra large display, these micrometers are easy-to-read and include a number of advanced features such as a reference system that retains the zero position setting, absolute reading for comparative measurements, tolerance indicators to qualify parts, a lock feature to prevent user error and a hold feature to retain the measured value.

Digital Indicator 1075 R

1075 R digital indicators are equipped with the innovative reference system. The zero position only has to be set one time; once it is set, the zero remains stored for all further measurements. Therefore, when the indicator is switched ON or the measuring spindle is moved the indicator is immediately ready for measurement.

Order any XX, steel, master ring or disc sized from 6,3 mm -100 mm (0.250 in - 4.0 in) and take 15% off of the current list price. Use the code MAHRMASTER to receive your discount. This offer is valid through the end of this promotion.

The Mahr Inc. Setting Master Guarantee

When you purchase your setting master from Mahr Inc. with certificate of size, Mahr guarantees that your master ring, plug or disc will be delivered to you within the tolerance grade specified. This guarantee assures your master ring, plug or disc will not require recertification at your incoming inspection. Should the master ring, plug or disc be out of specification within 30 days of receipt, and verified by Mahr, the company will repair or replace the master ring, plug or disc and issue full credit for its purchase price.

Guaranteed to meet spec or it's FREE*

** The purchaser may not reject products unless their measurements exceed published tolerances by more than their uncertainty of measurement. In all cases, Mahr Federal Inc. inspection will be the final accepted measurement.*

Digimar 816 CL Height Measuring Instrument

The Digimar 816 CL height gage provides highly accurate measurements without complicated procedures. A robust design and user-friendly operation are combined with advanced features and functionality to improve dimensional measurement on the shop floor or in the lab.

▲ Ideal for fast, in production part inspection
